

Worth Poly™ Polyester Laser Labels

Worth Poly™ Polyester Label Stock exclusively fom Worth Data

Worth Poly™ is a laser printable polyester label stock that produces very durable, long-lasting labels such as shelf labels and labels to be used outdoors. Paper label stock is too easily scuffed, damaged, and stained to use on shelf labels, which are normally expected to last for years. Labeling shelves is too expensive to have to repeat every several months, so we are stocking and selling seven sizes of polyester label stock for use with all B&W Laser Printers & many color Laser Printers (**not** Ink Jet or DeskJet printers). The heated toner from the laser printer fuses into the polyester material, creating a very durable bar code that can survive many readings and harsh treatment. Seven sizes are available:

Stock Number	Label Stock Size	Sheets /Labels per Pack	Price per Pack (Including Shipping*)
WP0517	0.5" high by 1.75" wide	50 Sheets/4000 Labels per Pack	\$50
WP0715	.75" high by 1.5" wide	50 Sheets/3500 Labels per Pack	\$50
WP1026	1" high by 2.625" wide	50 Sheets/1500 Labels per Pack	\$50
WP1020	1" high by 2" wide	50 Sheets/2000 Labels per Pack	\$50
WP8511	11" high by 8.5" wide	50 Sheets/50 Labels per Pack	\$50
WP1040	1" high by 4" wide	100 Sheets/2000 Labels per Pack	\$89
WP2040	2" high by 4" wide	100 Sheets/1000 Labels per Pack	\$89

Worth Poly™ is made from a special white, matte finish, heat stabilized polyester film designed for laser printers. When printed on a laser printer, the resulting label is heat resistant, water-resistant, light resistant, scuff resistant, smudge resistant, and stain resistant. These labels are ideal for any labels that you want to last through rough handling, repeated usage, outdoor usage, or other harsh environments. The permanent adhesive is designed to keep your label adhered to smooth clean surfaces including; painted surfaces, wood, metal, plastic, or glass for years. You pay a little more, but you get a lot more label for the money.
